CHERRY / GENEVA	RED OAK / FERRARA	MAPLE / BARCELONA
CHERRY / VIENNA	RED OAK / TORINO	MAPLE / DURANGO
		MAPLE / PALERMO
		MAPLE / VALENCIA

Design is at the heart of the human experience. From ancient temples to modern high-rises, iconic design allows the most basic materials to reveal intangible ideas and to reflect our passions. Versailles transcends plaster and paint. Rome surpasses mortar and stone. Villa Europa is more than hardwood flooring.

Villa Europa is hardwood flooring redefined, born from our passion for iconic design. This collection allows you to experience beautiful living in a way never before possible by combining exceptional creativity and quality with a deep respect for nature. Through an eco-responsible manufacturing approach, raw materials are obtained from responsibly managed forestry operations and production waste is minimized and

recycled. These steps are taken to safeguard timber resources for generations to come.

Like any world class masterpiece, each Villa Europa floor is unique. Every board is individually worked, to create its hammered look and distinctive character. This allows the beautiful organic features natural in hardwood, such as heartwood and sapwood highlights, to better shine through, which make each and every floor in this collection incomparable. Let iconic design transform the heart of your home. Villa Europa, flooring redefined.

*Flooring in the Villa Europa Collection is available in 3 1/4" and 4 1/4" widths, in a 3/4" thickness, exclusively in a matte finish.*
